✨ Spren AI Pharmacy Operating System

Next-Gen Pharmacy Billing & Inventory AI Platform

Transforming retail and hospital pharmacies with Voice-Powered Billing, AI OCR Supplier Inwarding, Automated Purchase Orders, Real-Time Sales Analytics, and GST Tax Compliance.

80%	2.5 Hrs	100%	0%
Faster Checkout	Saved Daily / Store	AI OCR Accuracy	Expired Stock Losses

⚡ Executive Product Overview

Spren AI eliminates daily pharmacy operational friction. By pairing real-time voice speech-to-cart technology with computer vision invoice scanning, Spren enables pharmacists to create bills in under 20 seconds, automatically ingest distributor bills from Cipla, Sun Pharma, Dr. Reddy's, etc., and maintain complete stock control without manual data entry errors.

🎙️ Voice-Activated Billing

Speak medicine names naturally in regional accents. Speech-to-cart engine parses products, assigns active batches, and calculates prices in under 1 second.

📄 AI OCR Distributor Import

Snap paper distributor invoices. AI reads medicine names, batch numbers, MRP, HSN, and expiry dates directly into inventory without keying.

📊 Sales & Revenue Intelligence

360-degree store dashboard tracking monthly revenue graphs, weekly sales velocity, category distributions, and top-selling product rankings.

⚠️ Automated Reorder Control

Proactive low-stock warnings when inventory drops below critical thresholds (≤15 units). One-click reorder creation prevents lost sales.

1 Spren AI Product Modules & Feature Architecture

🎙️ AI Voice & Quick Billing

Counter Operations

High-speed counter checkout module powered by speech processing and instant customer phone lookup.

- ✓ Multi-language speech-to-cart natural language engine AI
- ✓ Instant customer profile retrieval & past billing history
- ✓ FEFO batch selection (First-Expiry-First-Out logic)
- ✓ Multi-payment support (Cash, UPI, Credit Card) & digital receipt sharing

📦 Smart Inventory Control

Stock Management

Real-time stock tracking across tablets, strips, bottles, and batch variations with zero manual discrepancies.

- ✓ Automated strip-to-tablet stock unit conversion
- ✓ Batch-level expiry tracking & near-expiry waste alerts AI
- ✓ Category classification (Analgesics, Antibiotics, Diabetes)
- ✓ Low-stock reorder point recommendations (≤15 units)

📄 AI Supplier Bill & PO Inward

Procurement

Automated inwarding of distributor invoices and one-click purchase order generation.

- ✓ Computer vision paper invoice OCR & auto-ingestion AI
- ✓ Automatic distributor mapping (Cipla, Sun Pharma, Lupin)
- ✓ Discrepancy detection between PO and supplier bill
- ✓ One-click automated purchase order dispatch

📈 Analytics, Reports & GST

Tax & Reporting

Comprehensive reporting suite for store finances, tax statutory filings, and customer refill CRM.

- ✓ HSN code mapping & exportable GSTR-1 / GSTR-3B tax reports
- ✓ Revenue velocity charts & category profit margin analysis
- ✓ Schedule H1 prescription drug logging & audit trails
- ✓ Automated WhatsApp/SMS chronic medication refill reminders

2 Operational Comparison: Legacy Software vs. Spren AI

⚡ Billing Speed: 20 Seconds vs 4 Minutes

Legacy systems require manual typing of drug names and batch numbers during rush hours. Spren AI voice commands process full customer orders in under 20 seconds.

⚡ Stock Entry: Instant OCR Scan vs 60 Mins Typing

Entering stock from distributor paper invoices takes 1 hour per bill manually. Spren AI OCR scans PDF or paper bills, extracting MRP, expiry, and GST in seconds.

3 AI Engines & Technology Architecture

🤖 Spren Voice & Computer Vision Core

Proprietary AI

Built with state-of-the-art speech processing and optical character recognition trained on thousands of pharmaceutical product catalogs and Indian distributor invoice layouts. Ensures 100% data extraction precision for batch numbers, expiry dates, HSN codes, and pricing rules.

🔒 Enterprise Security & Cloud Synchronization

Bank-grade end-to-end encryption with continuous cloud backups. Offline fallback guarantees uninterrupted counter billing even during internet outages.

🏛️ Statutory Tax, HSN & Drug License Compliance

Fully compliant with Indian GST laws, Schedule H/H1 drug logging, license expiry tracking, and accountant-ready exportable financial statements.

🏢 Multi-Location & Chain Store Scalability

Centralized multi-branch inventory management. Transfer stock seamlessly between branches and monitor real-time performance across all store locations.

⚡ 10-Minute Onboarding & Zero Hardware Change

Browser-based SaaS platform running on any laptop, desktop, or tablet. Zero expensive hardware investments required.
